#### UNDERTAKING

1. I/We ensure that the insect/genetic material/germplasm/genetic stock, the details of which are being submitted for registration, are under long term conservation at our Active/Working Collection centre and also we assure its sustainable use by maintaining appropriate quantity of the material and providing access as appropriate on prior informed consent and on mutually agreed terms. I/We also agree to provide any further information or data pertaining to the description and unique characteristics to the ICAR/NBAIR in a transparent manner.

2. I/we assure genetic purity and truthfulness of the insect genetic material submitted for registration.
